SKILLS

Technical Skills: Sql Server,C#,.net framework, Mvc Core.Javascript,Front End.

Technical Tools: Visual Studio code,Visual Studio 2017,2019,2020,2022,Sql Server Management Studio,Postman,Swagger

WORK EXPERIENCE

Full Stack Web Developer

Jan 2024 - Present

Goldmedal Electricals Pvt. Ltd.

mumbai

Key Responsibilities & Projects:

- Led the development of multiple ERP web pages using **C#, ASP.NET, JavaScript**, and **jQuery**, backed by **SQL Server** databases.
- Maintained and enhanced ERP system modules including **User and admin panels**, streamlining order management and user experiences.
- Built and maintained **middleware solutions** for data synchronization between ERP and third-party systems like SAP Team.
- Engineered robust **RESTful APIs** for data integration between **ERP and SAP** systems via **SAP CPI (Cloud Platform Integration)**, enabling seamless migration workflows.(through Swagger and Postman)
- Contributed to the **Goldmedal manufacturing project**, customizing ERP components to align with sector-specific operational needs.
- Developed secure API pipelines for **M1xchange** platform, facilitating automated invoice data transfers for payment settlements.
- Implemented **Yes Bank e-commerce integration**, allowing customers to make real-time payments through Razor pay with Yes Bank's APIs.
- Collaborated with cross-functional teams to analyze system performance, resolve bugs, and roll out new features.

Full Stack Web Developer Intern

Mar 2023 - Dec 2023

Goldmedal Electricals Pvt. Ltd.

Mumbai

Key Responsibilities & Achievements:

- Developed a complete ERP web application enabling product orders via customer panel and order management via admin panel.
- Designed and implemented secure authentication mechanisms for both customer and admin logins.
- Applied Object-Oriented Programming (OOP) concepts to modularize and streamline application architecture.
- Built dynamic forms using ASP.NET Web Forms with C#.
- Integrated SQL-based backend for storing and retrieving customer profiles, order history, product inventory, and admin data.
- Collaborated with cross-functional teams during product design and testing phases.
- Completed "Deep Dive Web Forms" course on Udemy to strengthen full stack development skills.
- Earned certificate validating skills in OOP fundamentals and SQL database development.

EDUCATION

Msc.Information Technology

Jan 2021 - Jan 2023

Thakur College of Science Commerce

GPA: CGPA: 8.10

Bsc.Information Technology

Jan 2016 - Jan 2019

Tolani College of Commerce

GPA: CGPA: 6.32

PROJECTS

Smart Street Light Systems

Smart street light system with energy saving function based on the sensor network.

Online Food Ordering System with Closed kitchen view

It is a responsive website that gives you access to its closed kitchen through IP based camera or CCTV.

Estimate Number of Vacant Seats in Transport

This project identifies vacant seats in local buses using a centroid tracker and YOLOv3 algorithm in Deep Learning.

Emoji Classification Using CNN

Aug 2022 - May 2024

This project uses Convolutional Neural Networks (CNN) in Deep Learning to classify emojis based on real-time facial expressions.
